

Park City's national award-winning, 'Best of State' community leadership program is now accepting applications for Class 22. We are looking for those who desire to make a significant difference in our community's future. This year-long program October, 2015, and is open to adults living or working in the greater Park City area (Summit/Wasatch/Salt Lake counties).

The on-line application process is simple and brief, usually taking 30 minutes or less to complete, but we encourage applicants to read all the information concerning the leadership program on the City's website prior to applying. There you will find the program's vision, criteria for selection, and a listing of our over 500 alumni.

Each year we receive between 75-120 applications for the 30 positions selected for each class. Those selected receive a scholarship valued at \$2500 to participate in the program provided by our community sponsors.

It is important to understand that Leadership Park City is intended to help aspiring community leaders network with one another while gaining important leadership insights. Participating in Leadership Park City is not a "resume filler," but offers a great opportunity to those serious about making a difference and helping shape Park City's future.
