PROJECT DETAILS

Crews will continue to install water lines in Snow Creek Drive this week. Snow Creek Drive will remain closed during the week and opened to one way by the weekend. Crews are also replacing curb and sidewalk along Kearns Blvd, sidewalk closures will remain until concrete is poured and cured. All sidewalk closures will be on the South side of Kearns Blvd, none on the North.

Upcoming: Crews will be boring a section of the two water lines beneath Hwy 224 beginning the week of June 21. No traffic impacts are expected, but some shoulder closures and entries into Squatters and Hotel Park City will be impacted. Crews will install the remainder of the pipe on Park Avenue following the boring completion.
